

Directions to Hyperlink to a Streaming Video in Power Point

1. Search for Video Clip you would like to use (Access the United Streaming link on the library online resource page)
2. When you have selected the clip to use, **RIGHT CLICK** on the .
3. From the pop-up menu, select **Copy Shortcut**.

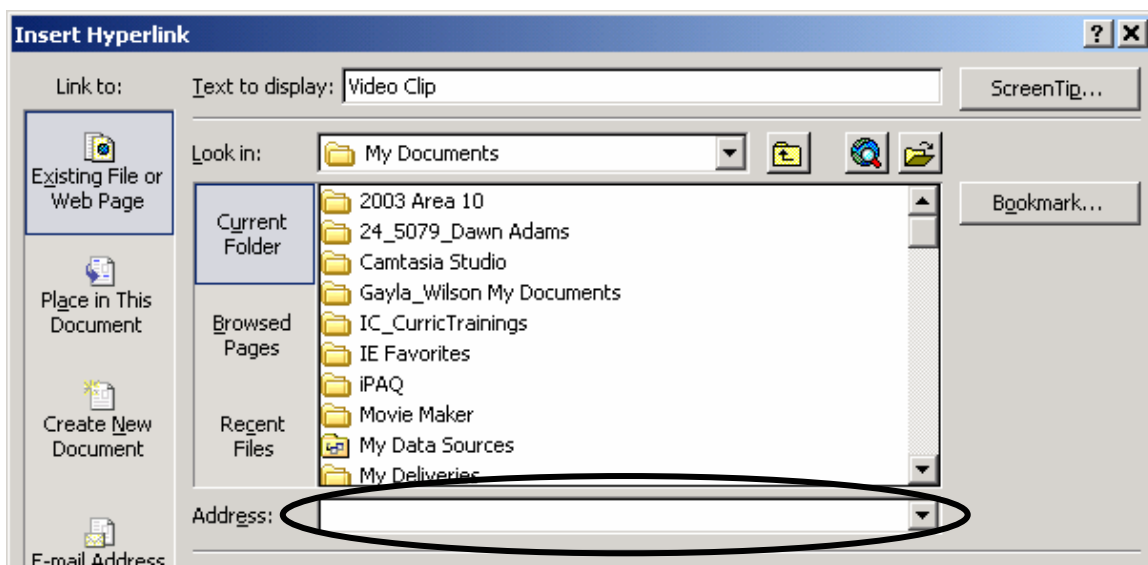

4. Open Power Point, and create slide where you want to link to video clip
5. Create the text or clipart you are using for a link.
6. **RIGHT CLICK** on that text or object.

7. From the pop-up menu, select **Hyperlink**

8. In the box the says: Address: Paste the shortcut by pressing **CTRL** and then **V** on the keyboard.

11. Click OK
12. View your Slide Show (Click Slide Show on the toolbar and choose View Show or press F5 on the keyboard)
13. Click on your Wordart or clipart and the video clip should open and start playing.

Remember, if the clip is on your desktop in the .ASF format, you will need the clip and .ppt file to be in the same place.

If you use the .ASX file format, you will need to show the clip from within RISD, not on a field trip or outside the district.
